

FUNDRAISING ADVISORY

The bridge you need for growth.

We help founders raise money for what they have built: getting you investor-ready, opening the right doors, and seeing the round through to close.

WHAT WE DO

We run the raise. You run the business.

01 — PREPARE

Investor-ready materials

Your story, deck, financial model and data room, built around the numbers investors actually underwrite: revenue quality, unit economics and the path to growth.

02 — CONNECT

The right investors

We introduce you to people who share your vision and understand your business: family offices, private equity, growth funds and strategic partners across the Gulf and beyond.

03 — CLOSE

From first meeting to wire

Pitch coaching, pipeline management, term sheet negotiation and diligence support until the capital is in the bank.

HOW IT WORKS

STEP 1

Application

Tell us about your business, turnover and what you want to raise. We reply within 48 hours.

STEP 2

Plan and materials

We agree the target, valuation range and timeline, then build your materials.

STEP 3

Investor outreach

Introductions, meetings and a managed pipeline, with weekly updates.

STEP 4

Term sheet to close

Negotiation and diligence support through to signing.

WHO WE WORK WITH

Founders ready for their next chapter.

Passionate founders who live and breathe what they build

Builders with proven revenue and real momentum

Teams preparing for their first institutional round

Founders who want a clear process and the right introductions

ABOUT

Built by a founder who has raised.

Bridgeline was started by an operator who has raised capital for their own successful business. We know what a founder is up against in a raise, because we have been there.

We help you avoid the mistakes that cost founders time, money and leverage, so you walk into every investor conversation prepared.

GET IN TOUCH

Tell us what you have built.
